Experience

CivicActions

Frontend Engineer: January 2022–current

Drupal theming and site building for a large US Federal Government site. Leveraging creativity and design skills as a frontend engineer and Drupal themer to create accessible, user-friendly, responsive themes. Uses modern theming technologies, well organized code, and attention to detail to create build front-end applications that are easy to use, accessible, and maintainable. Participates as a team player on cross-functional project teams using agile scrum methodologies.

University of MN College of Science & Engineering | Minneapolis, MN

Developer: July 2019–July 2021

Serve as frontend lead for cse.umn.edu. Implement new Drupal 8 base theme, overhaul file structure, and refactor components to improve consistency, maintainability, usability, and WCAG compliance. Design and build new features and troubleshoot issues in existing components.

DevMode, Inc. | Minneapolis, MN

Software Engineer: July 2018–January 2019

Develop user-friendly database-driven web applications. Build custom components using modern Javascript including React and Redux for maintainability and scalability. Present seamless user experiences across browsers and devices with modern, well-organized stylesheets.

Maje Media | Minneapolis, MN

Front End Developer: October 2017–January 2018

Conception, production, and development of the front end look, feel, and functionality of client websites, primarily using WordPress including custom fields, post types, page templates, and admin features. Upkeep and maintenance of client sites. Internal marketing and design services.
